Margaret Wente Writes:

"I like Newfoundlanders, I really do, but St. John's weighs in with more fat people per capita than anywhere else in the country"

"I like Newfoundlanders. I really do. But their sense of victimhood is unmatched"

"I like Newfoundlanders, I really do. Where would we be without Rex Murphy and Mary Walsh and Rick Mercer? On the other hand, they left"

**"I like Newfoundlanders, I really do. I'd kiss the cod!
Sure I'd even slip it the tongue!"**

The last one may have been embellished

It's time for the people of Newfoundland & Labrador to have a real voice. That voice is yours...
